SKILLS

Languages:	C++, Python, Java, SQL
Frameworks	Django, Flask, REST APIs
Tools/Platforms	AWS, Docker, Kubernetes, Git, Linux, VS Code, MySQL Workbench, Postman
Core Fundamentals	Data Structures & Algorithms, DBMS, OOP, Operating Systems, Computer Networks
Soft Skills	Adaptability, Creativity, Decision making, Quick Learner, Teamwork

PROJECTS

Real-Time Collaborative Code Editor Flask, Socket.IO, Monaco Editor, SQLite Link	Jun' 26
- Constructed a collaborative online code editor with real-time synchronization using Flask and Socket.IO. - Orchestrated secure authentication, workspace management, and persistent storage with SQLite. - Integrated Monaco Editor featuring syntax highlighting, multi-language execution, and live collaboration. - Optimized modular backend architecture for scalable communication and efficient code synchronization.	
Full-Stack E-Commerce Application Django, SQLite, HTML, CSS Link	Feb' 26
- Engineered a database-driven e-commerce platform using Django with normalized relational models for products, carts, and orders. - Implemented secure authentication with custom user model, session management, and access-controlled routes. - Designed transactional cart-to-order workflow ensuring data consistency through Django ORM relationships. - Structured modular application architecture following MVC principles to improve maintainability and backend performance.	
Student Management System C++, File Handling Link	Jun' 25
- Developed a C-based student management system with login authentication and menu-driven operations. - Utilized file storage techniques ensuring long-term preservation of academic details and enrolment information. - Integrated input verification, record modification, removal options, plus formatted table-style display. - Enhanced record organization effectiveness by 40%, lowering manual administrative workload considerably.	

TRAINING

CPP Programming: OOPs and DSA CSE Pathshala Certificate	Jun' 25 – Jul' 25
- Applied OOPs principles to develop clean, modular, and reusable C++ code - Explored data structures including Trees and Hash Maps along with fundamental searching algorithms - Strengthened problem-solving skills through regular practice and performance optimization in algorithmic challenges.	

CERTIFICATES

Academy Graduate - Cloud Architecting - Training Badge Amazon Web Services	Feb' 26
Introduction to IoT (IIT Kharagpur) NPTEL	Oct' 25
Build Generative AI Apps and Solutions with No-Code Tools Udemy	Aug' 25
Introduction to Hardware and Operating Systems Coursera	Sep' 24
Fundamentals of Network Communication Coursera	Sep' 24

ACHIEVEMENTS

Practiced 150+ DSA problems Link Enhanced proficiency in arrays, trees, graphs, searching, and sorting.	Dec' 24
Build-a-thon hackathon (Board Infinity) Link Participated and built a working prototype, strengthening teamwork and rapid problem-solving skills.	Apr' 24

EDUCATION

Lovely Professional University Bachelor of Technology - Computer Science and Engineering; CGPA: 7.46	Phagwara, Punjab Aug' 23 – Present
SD Senior Secondary School Intermediate, PCM: Percentage: 82	Hoshiarpur, Punjab Mar' 22 – May' 23
Woodland Overseas School Matriculation, Percentage: 89.2	Hoshiarpur, Punjab Mar' 20 – May' 21
